NEW PRODUCTS

RJS ELECTRONICS LTD

Switches | Sensors | Relays

Anti Vandal Toggle Switches

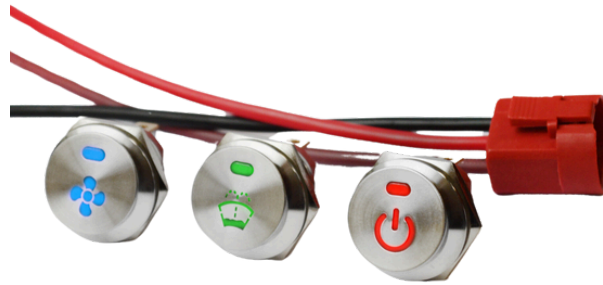

The **RJS-TOG** has a traditional toggle switch function, paired with an anti vandal style metal body. It also features ring LED illumination in a variety of single LED colour options.

Available in **19mm** and **22mm** panel cut out sizes, with 2 position or 3 position configuration.

Anti Vandal Rocker Switches

Our new series of **Metal Rockers** offer the same benefits of our hard-wearing anti-vandal push buttons, but with an ON/OFF rocker function.

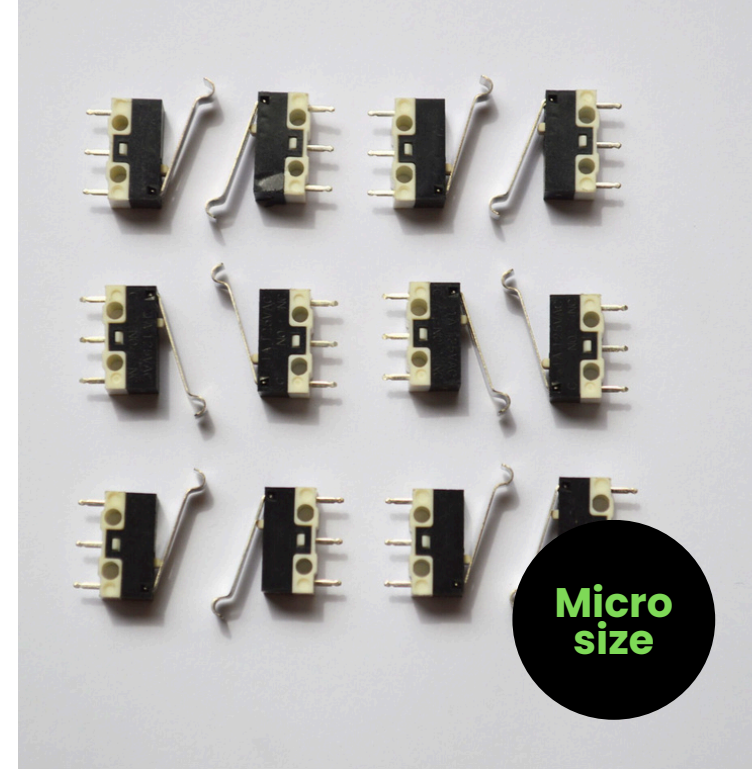

IP67 Rated

Micro Switches

Micro switches can be found inside many devices. These small switches feature spring-loaded levers, which open and close internal circuits.

Known for their reliability and durability, with sealed micro switch types also available.
