

RJS-TACT-D28-H

TACT SWITCH

On/off pcb tactile switch that is only on when the button is pressed or if there is a definitive change in pressure.

Used for circuit board, there are many different kinds of height for the switch knob, the standard height range is 4.3mm and 5mm.

Type:	Snap-in	Operating force:	0.98N
Operating Direction:	Top Push	Travel:	0.25mm
Operating Life:	Over 100,000 cycles	Initial contact resistance:	100mΩ max.
Stem color:	Black	Operating Temperature:	-40°C~+90°C
Stem height:	H=4.3; 5mm	Series type:	long leg type
Rating (max.):	50mA 12V DC	Rating (min.):	10μA 1V DC
SPQ:	1,000pcs	OEM or ODM:	Available
